

MAXIMO DAVID G. ORTIZ, JR.

Software Engineer | Batangas, PH | +63 906 089 3002 | davidgortizjr@gmail.com | davidortizjr.github.io

SKILLS

Technical: React, TypeScript, JavaScript, Java, C#, SpringBoot, ASP.NET, PHP, Laravel, HTML5, CSS3, Bootstrap, Microsoft SQL Server (MSSQL), MySQL, Git, GitHub, Azure DevOps, Visual Studio, Visual Studio Code, Agile Development, Figma, Jupyter Notebook, Python, Machine Learning, Generative AI, Prompt Engineer, Github Copilot, Cursor

Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management, Adaptability, Critical Thinking, Continuous Learning

EXPERIENCE

Software Engineer Intern — MicroSource Inc. *Feb 2026 – May 2026 ; Quezon City, Metro Manila*

- I investigated and resolved defects across the React/TypeScript, C#, and ASP.NET stack, built and maintained application features, and refactored backend code for readability and long-term maintainability, while working directly with Microsoft SQL Server for data management.
- Collaborating with the engineering team through Azure DevOps for bug tracking, code review, testing, and deployment, I helped raise application reliability and left the backend easier for the team to build on going forward.

Fullstack Web Developer — BoardBrew Amusement Place *May 2025 ; Taft Ave, Malate, Manila*

- Collaborated directly with the client to gather requirements and deliver tailored solutions, ensuring alignment with project goals. Constructed and delivered a fully responsive client website, enhancing user experience from ideation to deployment.
- Implemented modern UI components with HTML, CSS, JavaScript, and Bootstrap, improving site usability and aesthetics. Developed backend functionality using PHP and MySQL.

PROJECTS

LucidFlow — Team Collaboration & Project Management Platform | github.com/davidortizjr/LucidFlow

- Built a full-stack collaboration platform with Kanban boards, task assignment, real-time messaging, calendar scheduling, and time tracking using React, TypeScript, Vite, Tailwind CSS, Node.js, and Express.
- Designed the PostgreSQL data model with Prisma ORM and developed RESTful APIs for projects, tasks, messaging, and calendar events; implemented drag-and-drop boards and animations with Framer Motion and GSAP.

Support-Desk — Customer Support Ticketing System | github.com/davidortizjr/Support-Desk

- Developed a full-stack ticketing system with authentication, customer management, ticket tracking, and dashboard analytics using React, TypeScript, Tailwind CSS, and ASP.NET Core.
- Built a RESTful ASP.NET Core Web API with Entity Framework Core and SQL Server for ticket and customer management, with seeded data demonstrating an end-to-end support workflow.

Flashy — AI-Powered Flashcard Study Platform | <https://flashy-virid.vercel.app/>

- Built an AI-powered flashcard platform for importing study material, generating flashcard decks, reviewing cards, and tracking learning progress using React, Node.js, and Express.
- Implemented user authentication, protected routes, subscription/billing flows, and deck management through a Node/Express backend.

EDUCATION

BS in Information Technology — Polytechnic University of the Philippines *Nov 2022 – Sep 2026*

Sto. Tomas, Batangas

TRAINING & SEMINARS

Salesforce Supported Virtual Internship Program — 2025 • University Capture The Flag (CTF), Trend Micro — August 2025 • DEVCON Philippines, University of Batangas – Lipa Campus — December 2024 • Tech Quest: Decoding the Matrix of Software Development, Computer Society — April 2024
